Majestic bed

ADJUSTAMATIC
COMFORT YOU CONTROL

Majestic

The Majestic bed boasts sharp, contemporary lines providing a modern look fit for any interior styling requirements.

The Majestic bed comes with covered side panels fitted around a slatted base. In a fabric to suit your room and style, the robust frame is hand built in the UK using only the finest materials that are designed to last.

With the Majestic adjustable bed, you can go from a lying position to a sitting up position at the touch of a button. A raised position helps to reduce pressure on the upper back, shoulders and upper arms, and makes getting in and out of bed much easier.

By raising the foot end of the bed, you can help improve circulation, reduce excess fluid and prevent leg cramps. Raising both the head and foot ends into a shallow contour cradles the body into the ultimate comfort position and promotes a deep and restful night's sleep.

Key product benefits

- Option of four drawers with double or twin beds
